

JOURNAL WATCH

NEUROLOGY

Published by the Massachusetts Medical Society, publishers of *The New England Journal of Medicine*

Volume 3 Index

2001 Annual Index

January 2001 –
December 2001

A

Alzheimer's Disease (see also Dementia)

- Brainstem Nuclei Are Selectively Vulnerable to Plaques and Tangles in Alzheimer's Disease 40
- Copper/Zinc Chelator Lowers Amyloid β -Protein Levels in Mice 87
- Dementia and Alzheimer's Disease: Does Incidence Differ Across the Globe? 45
- Early-Adult Head Injury and Risk for Subsequent Alzheimer's Disease 9
- Galantamine Is Effective for Mild-to-Moderate Alzheimer's Disease 90
- Is Impaired Odor Detection with Dementia Associated with Lewy Bodies? 78
- Mucosal Administration of A β : Another Route for AD Immunization? 7
- Neural Processing of Novel Events Disrupted in Early Alzheimer's Disease 78
- Patterns of Temporal Lobe Atrophy Differ in Semantic Dementia and Alzheimer's Disease 60
- Practice Parameters: Diagnosis, Treatment, and Early Detection of Dementia 65
- Substantial Pathologic Changes of the Brainstem Documented in AD 9

Amusia

- Pathoanatomy of Amusia: Harmony Perception and Aesthetics 88

Amyloid β -Protein

- Cerebral Amyloid Angiopathy Associated with Ischemic Stroke Without Dementia 11
- Copper/Zinc Chelator Lowers Amyloid β -Protein Levels in Mice 87
- Dementia and Amyloid Angiopathy 66
- Mucosal Administration of A β : Another Route for AD Immunization? 7
- Warfarin-Related ICH and Cerebral Amyloid Angiopathy 11

Amyotrophic Lateral Sclerosis

- Does a Modifying Factor Affect Outcome in Inherited ALS? 10
- Effect of Noninvasive Ventilation in Amyotrophic Lateral Sclerosis 48

Angioplasty, Balloon

- Intracranial Use of Direct Stenting for Basilar Artery Stenosis 12

Anticoagulants

- Prognosis Poor When Antithrombotics Fail in Symptomatic Intracranial Stenosis 12
- Safety and Efficacy of Therapies for Acute Ischemic Stroke: A Review 2
- Warfarin-Related ICH and Cerebral Amyloid Angiopathy 11

Anticonvulsants

- Anticonvulsant Drugs Are Teratogens 51

- Early Response to AEDs Predicts Prognosis in Adult Epilepsy 92
- Teratogenic Effects of AEDs: Report from the MADRE Project 22
- Valproate and Polycystic Ovarian Syndrome: Alternative Views 61
- Weight Gain in Epileptics: Valproate vs. Lamotrigine Monotherapy 44

Antihypertensives

- Advances in Management of SAH 41
- Autoregulation of Cerebral Blood Flow in Acute Intracerebral Hemorrhage 74

Antiplatelets

- Risk for GI Hemorrhage Associated with Long-Term Aspirin Use 13

Antithrombotic Treatment

- Pediatric Cerebral Sinovenous Thrombosis: Risk Factors and Complications 83

Aphasia

- Primary Progressive Aphasia: A Review 78

Autism

- The Functional Neuroanatomy of Social Behavior 23

Autoimmune Disorders

- Acute Disseminated Encephalomyelitis vs. Multiple Sclerosis in Children 36
- Association of Dermatomyositis and Polymyositis with Malignancy 36
- Guidelines for Autoantibody Testing in Peripheral Neuropathies 94
- Identification of Vasculitis of the Nervous System: A Review 93
- Mild Guillain-Barré Syndrome: How Should It Be Managed? 85
- Sensory Guillain-Barré Syndrome: Does It Exist? 34
- Some Ataxia Associated with Hashimoto's Disease May Be Autoimmune 77
- What Is the Course of Peripheral Neuropathy in Lupus? 76

Autonomic Disorders

- More Evidence for Autonomic Neuropathy in Postural Tachycardia Syndrome 8

B

Bacterial Infection

- Chlamydia and Multiple Sclerosis: Is There an Association? 71

Basilar Artery

- Intracranial Use of Direct Stenting for Basilar Artery Stenosis 12

Behçet's Disease

- Behçet's Disease: Neurologic Involvement and Prognostic Factors 71

Blindness

- Synchronizing the Circadian Clocks of Blind People with Melatonin 1

Brain Death

- Neurologic Criteria for Death: A Review 49

Brain Edema

- How to Recognize Toxic Encephalopathy Involving White Matter 86
- What Causes Cerebral Edema in Children with Diabetic Ketoacidosis? 51

Brain Mapping

- Are Specific Neurophysiologic Markers Associated with Conversion Disorder? 79
- Nondominant Frontal Function Is Linked to the Concept of Self 89
- Theory of Mind and the Frontal Lobes 46

Brain Tumors

- Cell Phone Use and Risk for Brain Cancer 29
- Feasibility of PET Monitoring of Gene Therapy for Brain Tumors 95
- Importance of Cranial Radiotherapy Techniques and Subsequent Cognitive Decline 77
- Radical Surgery vs. Surgery for Cavernous Sinus Meningiomas? 30

C

Carotid Artery Disease

- Endovascular vs. Surgical Treatment of Carotid Stenosis: Report from CAVATAS 75
- Is Raeder's Paratrigenial Syndrome Caused by Carotid Artery Disease? 59
- More on Deleterious Vascular Changes and Aging 68
- White Blood Cell Count, Carotid Plaque Thickness, and Race-Ethnicity 72

Carotid Endarterectomy

- Effect of Clinical Alerts on the Practice of CE 32
- Endarterectomy in High-Grade Stenosis and Contralateral Occlusion 54
- Maximizing the Benefit of Carotid Endarterectomy: The Debate Continues 3
- Validation of Sonographic Criteria for Carotid Stenosis 31

Carpal Tunnel Syndrome

- The Natural History of Untreated Carpal Tunnel Syndrome 86

Cellular Telephones

- Cell Phone Use and Risk for Brain Cancer 29

Cerebellar Disorders

- Can Neuroimaging Predict Deterioration After Cerebellar Infarction? 3
- Neuropsychological Deficits After Cerebellar Stroke 37
- Some Ataxia Associated with Hashimoto's Disease May Be Autoimmune 77

Cerebral Palsy Hyperbaric Oxygen Does Not Benefit Children with Cerebral Palsy 47	Diabetes Mellitus Brain May Hold Clues to Signs Associated with Insulin-Resistant Diabetes 6 Is Pupil Size a Useful Diagnostic Finding in Third Nerve Palsy? 63 On the Problem of Assessing Axonal Pathophysiology 69 What Causes Cerebral Edema in Children with Diabetic Ketoacidosis? 51	Genotypes and Phenotypes Often Correlate in Familial Hemiplegic Migraine 80 Huntington's Disease: To Know or Not to Know? 30 Hypocretin Deficiency Is Important in Narcolepsy-Cataplexy Syndrome 5 Progress in Identifying the Molecular Basis of Muscular Dystrophies 5
Cerebrospinal Fluid Clinical and Imaging Features of Cerebral Spinal Fluid Hypovolemia 14	E Electromyography The Geste in Cervical Dystonia 91 What Is the Role of the Sensorimotor Cortex in Essential Tremor? 43	Gulf War Syndrome Gulf War Syndrome: What Do We Know? 55
Chickenpox Prior Varicella Infection and Cerebrovascular Disease: A Risk Factor Is Clarified 83	Epidemiology Does High Dietary Potassium Intake Reduce Stroke Risk? 82	H Head Trauma Early-Adult Head Injury and Risk for Subsequent Alzheimer's Disease 9 More Rules for Head CTs 64
Chronic Fatigue Syndrome Personalized Education Helps in Chronic Fatigue Syndrome 47	Epilepsy (see also Anticonvulsants) Causes of Epilepsy: Insights from Discordant Monozygous Twins 52 Early Response to AEDs Predicts Prognosis in Adult Epilepsy 92 Early Seizure Onset Associated with MR 68 Evaluation and Treatment of Epilepsy: A Primary Care Review 61 Factors Predicting Prognosis in Newly Diagnosed Epilepsy 33 How Prevalent Is Epilepsy in Patients with an Episode of Unconsciousness? 33 Low Short-Term Risk in Children with Febrile Status Epilepticus 62 Mesial Temporal Lobectomy Superior to Medical Therapy for Epilepsy 81 Mortality in Epilepsy: Results of a Long-Term, Population-Based Study 44 Outcome After Epilepsy Surgery in Patients with MCD: One Center's Experience 22 Seizures Accompanying First Stroke: Predictors and Prevalence 81 Teratogenic Effects of AEDs: Report from the MADRE Project 22 Valproate and Polycystic Ovarian Syndrome: Alternative Views 61 Weight Gain in Epileptics: Valproate vs. Lamotrigine Monotherapy 44	Headache (see also Migraine) Cardiac Causes of Migraine Will Not Be Denied 20 Genotypes and Phenotypes Often Correlate in Familial Hemiplegic Migraine 80 Indomethacin: A Possible Treatment for Intracranial Hypertension? 2 Is Aspirin Effective in Treatment of Acute Migraine? 19 Is Raeder's Paratrigeminal Syndrome Caused by Carotid Artery Disease? 59 Recommendations for Preventing Post-Lumbar Puncture Headache Syndrome 15 Stratified Care Is Better Than Step Care for Treatment of Migraine 19
Cognition Birth Weight Is Associated with Cognitive Ability into Early Adulthood 49 Does Raloxifene Affect Cognitive Function in Postmenopausal Women? 60 Early Seizure Onset Associated with MR 68 Higher Concentrations of Endogenous Estrogens May Prevent Cognitive Decline 7 Importance of Cranial Radiotherapy Techniques and Subsequent Cognitive Decline 77 Memory and the Frontal Lobes: The fMRI Evidence 67 Neural Processing of Novel Events Disrupted in Early Alzheimer's Disease 78 Neuropsychological Deficits After Cerebellar Stroke 37 Theory of Mind and the Frontal Lobes 46 What Is the Long-Term Effect of CABG on Cognitive Function? 68	Estrogen Does Raloxifene Affect Cognitive Function in Postmenopausal Women? 60 Higher Concentrations of Endogenous Estrogens May Prevent Cognitive Decline 7	Heart Disease AF-Associated Stroke: Notes on a Management Revolution 57 Atrial Ectopic Beats: Another Risk Factor for Stroke 25 Cardiac Causes of Migraine Will Not Be Denied 20 Explaining "Undeserved" Decompression Illness 28 Neurologic Complications: Still a Significant Problem in Bacterial Endocarditis 16 What Is the Long-Term Effect of CABG on Cognitive Function? 68
Creatine Is Creatine Protective in Neurodegenerative Disease? 67	G Gastrointestinal Hemorrhage Risk for GI Hemorrhage Associated with Long-Term Aspirin Use 13	HIV Infection Changes in Incidence in HIV-Associated Neurologic Disease in the HAART Era 39
D Decompression Sickness Explaining "Undeserved" Decompression Illness 28	Gene Therapy Feasibility of PET Monitoring of Gene Therapy for Brain Tumors 95 Gene Therapy Advance in Parkinson's Disease 10	Huntington's Disease Huntington's Disease: To Know or Not to Know? 30
Dementia (see also Alzheimer's Disease) A Phenomenologist Looks at the Alien Hand 24 Cholinergic Therapy: As Effective in Dementia with Lewy Bodies as in AD? 21 Dementia and Alzheimer's Disease: Does Incidence Differ Across the Globe? 45 Dementia and Amyloid Angiopathy 66 Nondominant Frontal Function Is Linked to the Concept of Self 89 Patterns of Temporal Lobe Atrophy Differ in Semantic Dementia and Alzheimer's Disease 60 Practice Parameters: Diagnosis, Treatment, and Early Detection of Dementia 65 Semantic Dementia and the Organization of Long-Term Memory 52 Statins Linked to Decreased Prevalence of Dementia 21 Survival After Onset of Dementia: Shorter Than Previously Believed? 59	Genetic Factors Causes of Epilepsy: Insights from Discordant Monozygous Twins 52 Classification of the Neuronal Ceroid Lipofuscinoses 90 Degree of Risk for Essential Tremor in Relatives of Patients: A Report from WHIGET 70 Dementia and Amyloid Angiopathy 66 Detecting Mosaicism Aids Management of NF1, NF2 95 Does a Modifying Factor Affect Outcome in Inherited ALS? 10 EMG Features of Inherited Demyelinating Neuropathies 13 Genetic Factors in PD in Iceland 30	Hydrocephalus New Clues to the Gait Disorders of Normal-Pressure Hydrocephalus and PD 43
Demyelinating Neuropathies A CNS Demyelinating Disease in Black Africans 62 A Classification Scheme for Chronic Acquired Demyelinating Neuropathies 55 ADEM or MS? An Important Diagnostic Issue 75 Axonal Guillain-Barré Syndrome 69 CIDP: Variable Expression Across Ages 45 EMG Features of Inherited Demyelinating Neuropathies 13 Mild Guillain-Barré Syndrome: How Should It Be Managed? 85 Sensory Guillain-Barré Syndrome: Does It Exist? 34 What Tests Should Be Used to Evaluate Patients with Chronic Polyneuropathy? 94	I Immunization No Significant Risk to Vaccination in MS 25	Immunoglobulins Mild Guillain-Barré Syndrome: How Should It Be Managed? 85 Neuropathy and Antibodies to MAG, SGPG, and Sulfatide 35 No Benefit from IVIg in Persistent Visual Loss from Optic Neuritis 76
	Immunosuppressants ADEM or MS? An Important Diagnostic Issue 75 Does Glatiramer Acetate Therapy Suppress New MRI Lesions in Relapsing MS? 45 Methotrexate for Giant-Cell Arteritis? 28 Mycophenolate Mofetil: A New Treatment for Neuromuscular Disease? 34	Interferon Therapy Interferon in Early Multiple Sclerosis: The ETOMS Study 86

Intracranial Arteriosclerosis

- Intracranial Use of Direct Stenting
for Basilar Artery Stenosis 12
Prognosis Poor When Antithrombotics Fail
in Symptomatic Intracranial Stenosis 12

Intracranial Hypertension

- Reappraisal of Idiopathic Intracranial
Hypertension. 54

L
Language

- Brain Correlates of Stuttering: Cause
or Consequence? 52
Handedness and Cerebral
Language Laterality 23

Leukoaraiosis

- Leukoaraiosis: A Phenomenon That Needs
Further Study. 29

Leukoencephalopathy

- How to Recognize Toxic Encephalopathy
Involving White Matter. 86

Lyme Disease

- Antibiotics to Prevent Lyme Disease:
Theoretically Useful
in Some Circumstances 84
Persistent Symptoms of Lyme Disease:
Not Necessarily Responsive
to Antibiotics. 84

M
Magnetic Resonance Imaging

- Bilateral Thalamic Infarction: Different
Patterns in Different Territories 41
Can Neuroimaging Predict Deterioration
After Cerebellar Infarction? 3
Clinical Correlates of Diffusion and Perfusion
Abnormalities in Acute Stroke 37
Clinical and Imaging Features of Cerebral
Spinal Fluid Hypovolemia 14
Hyperacute MRI in Stroke Diagnosis
and Management: Two Views. 57
Memory and the Frontal Lobes:
The fMRI Evidence 67
The Functional Neuroanatomy
of Social Behavior 23
Welding May Be an Environmental
Trigger for PD 39

Memory

- Do Febrile Seizures in Early Childhood
Affect Working Memory? 92
Memory and the Frontal Lobes:
The fMRI Evidence 67
Semantic Dementia and the Organization
of Long-Term Memory. 52

Meningitis

- Acute Bacterial Meningitis in Adults. 31

Mental Retardation

- Classification of the Neuronal Ceroid
Lipofuscinoses. 90

Metabolism

- Is Creatine Protective
in Neurodegenerative Disease? 67

Migraine

- Cardiac Causes of Migraine
Will Not Be Denied 20
Genotypes and Phenotypes Often Correlate
in Familial Hemiplegic Migraine 80
Is Aspirin Effective in Treatment
of Acute Migraine? 19
Is Migraine a Common Cause of Vertigo?
The Jury Is Still Out 55
Stratified Care Is Better Than Step Care
for Treatment of Migraine. 19

Movement Disorders

- A Phenomenologist Looks at the
Alien Hand. 24
The Geste in Cervical Dystonia 91

Multiple Sclerosis

- A CNS Demyelinating Disease
in Black Africans 62
Acute Disseminated Encephalomyelitis
vs. Multiple Sclerosis in Children 36
ADEM or MS? An Important
Diagnostic Issue 75
Bone Marrow Transplantation in MS:
Two Views 18
Chlamydia and Multiple Sclerosis:
Is There an Association? 71
Conjugal Multiple Sclerosis. 17
Does Glatiramer Acetate Therapy Suppress
New MRI Lesions in Relapsing MS? 45
Does Remyelination After Optic Neuritis
Result in Clinical Improvement? 62
Interferon in Early Multiple Sclerosis:
The ETOMS Study 86
No Significant Risk to Vaccination in MS 25
Relapse, Remission, and Disability
Progression in Multiple Sclerosis 17

Muscular Dystrophy

- Progress in Identifying the Molecular Basis
of Muscular Dystrophies 5

Myasthenia Gravis

- Mycophenolate Mofetil: A New Treatment
for Neuromuscular Disease? 34
Quality of Life in Patients
with Myasthenia Gravis. 63
Thymectomy in Myasthenia Gravis:
Problems and Questions Remain 4

N
Narcolepsy

- Hypocretin Deficiency Is Important
in Narcolepsy-Cataplexy Syndrome 5

Neurocysticercosis

- Further Progress in Refining Diagnostic
Criteria for Neurocysticercosis 85

Neurofibromatosis

- Detecting Mosaicism Aids Management
of NF1, NF2. 95

**Neuroimaging (see also Magnetic
Resonance Imaging)**

- Brain Correlates of Stuttering: Cause
or Consequence? 52
Can Plaque Morphology Determine Risk
for Retinal or Brain Ischemia? 20
Correlating Dysarthria with Causes, Anatomy,
and Associated Symptoms of Stroke 74
Handedness and Cerebral
Language Laterality 23
Increased Dopamine Turnover and Motor
Complications in PD? 56
More Rules for Head CTs 64
Vascular Origin of Cochleovestibular
Disorders: No New Evidence 92

Neurotoxins

- How to Recognize Toxic Encephalopathy
Involving White Matter 86

O
Olfaction

- Is Impaired Odor Detection with Dementia
Associated with Lewy Bodies? 78
Olfaction and Striatal Dopamine in Preclinical
Parkinson's Disease 91

Optic Neuritis

- Does Remyelination After Optic Neuritis
Result in Clinical Improvement? 62
Is Pupil Size a Useful Diagnostic Finding
in Third Nerve Palsy? 63
No Benefit from IVIg in Persistent
Visual Loss from Optic Neuritis 76

P
Pain

- COX-2 in the CSF Tells the Brain
About Pain. 53
Crossing of the Spinothalamic System 53
Deconstructing the Case Against Intraspinal
Steroids for Low Back Pain 70
Efficacy and Safety of Cannabinoids
for Pain Management 95
Intrathecal Methylprednisolone
for Intractable Postherpetic Pain 15
Is Central Pain Peripheral? 73

Paraneoplastic Syndromes

- Association of Dermatomyositis
and Polymyositis with Malignancy 36
Malignancy Risk in Inflammatory
Myopathies Uncertain 69

Parkinson's Disease

- Bilateral Deep-Brain Stimulation
for Tremor. 42
Gene Therapy Advance
in Parkinson's Disease. 10
Genetic Factors in PD in Iceland 30
Increased Dopamine Turnover and Motor
Complications in PD? 56
New Clues to the Gait Disorders of Normal-
Pressure Hydrocephalus and PD. 43
Olfaction and Striatal Dopamine in Preclinical
Parkinson's Disease. 91
Some Patients with Parkinson's Disease
Are at Increased Risk for Hip Fracture 39
Welding May Be an Environmental
Trigger for PD 39

Periodontal Disease

- Periodontal Disease Increases Risk
for Nonhemorrhagic Stroke 27

Peripheral Neuropathy

- Guidelines for Autoantibody Testing
in Peripheral Neuropathies. 94
Is Sural Nerve Biopsy Useful in Neurologic
Practice? 4
Neurologic Manifestations
of Wegener's Granulomatosis 93
Neuropathy and Antibodies to MAG, SGPG,
and Sulfatide 35
Peripheral Nerve Manifestations
of Connective Tissue Diseases 35
What Is the Course of Peripheral
Neuropathy in Lupus? 76

R
Racial Factors

- Racial Disparity in Use of tPA for Acute
Ischemic Stroke. 73

Rehabilitation

- Organized Multidisciplinary Postacute Stroke
Care Really Matters 38

Romberg's Sign

- Romberg's Sign: Past and Present Use
and Interpretation 7

S
Self

- Nondominant Frontal Function Is Linked
to the Concept of Self. 89

Sensation Disorders

- Are Specific Neurophysiologic Markers
Associated with Conversion Disorder? 79

Sexuality

- Neurologic Basis of the Sexual Response
Cycle in Women: An Initial Overview 46

Sleep

- Body Position, Sleep Stage, and Upper-Airway
Collapsibility in Sleep Apnea. 47

Oral Appliances to Treat Sleep Apnea: Which Ones Work?	22	Pediatric Cerebral Sinovenous Thrombosis: Risk Factors and Complications	83	Temporal Arteritis Methotrexate for Giant-Cell Arteritis?	28
Recent Progress in Understanding Excessive Daytime Sleepiness	96	Periodontal Disease Increases Risk for Nonhemorrhagic Stroke	27	Visual Complications Are Still Frequent in Giant Cell Arteritis.	1
Synchronizing the Circadian Clocks of Blind People with Melatonin	1	Prior Varicella Infection and Cerebrovascular Disease: A Risk Factor Is Clarified.	83	Tetanus Tetanus: Still a Threat to Infants and the Elderly	6
Spinal Cord Crossing of the Spinothalamic System	53	Prognosis Poor When Antithrombotics Fail in Symptomatic Intracranial Stenosis	12	Tissue Plasminogen Activator Hyperacute MRI in Stroke Diagnosis and Management: Two Views.	57
Deconstructing the Case Against Intraspinal Steroids for Low Back Pain	70	Racial Disparity in Use of tPA for Acute Ischemic Stroke.	73	Tourette Syndrome Does Baclofen Help Children with Tourette Syndrome?	50
Neurologic Basis of the Sexual Response Cycle in Women: An Initial Overview	46	Risk for Hemorrhagic Stroke with Phenylpropanolamine	26	Transient Ischemic Attack Identifying Patients at High Risk for Stroke After TIA.	20
Recommendations for Preventing Post-Lumbar Puncture Headache Syndrome	15	Safety and Efficacy of Therapies for Acute Ischemic Stroke: A Review	2	Tremor Degree of Risk for Essential Tremor in Relatives of Patients: A Report from WHIGET?	70
Statins Statins Linked to Decreased Prevalence of Dementia.	21	Seizures Accompanying First Stroke: Predictors and Prevalence.	81	What Is the Role of the Sensorimotor Cortex in Essential Tremor?	43
Stiff-Person Syndrome Clinical Features and Immunogenetic Markers in Stiff-Person Syndrome	14	Tongue Deviation in Acute Unilateral Ischemic Stroke.	42	V Vasculitis Identification of Vasculitis of the Nervous System: A Review	93
Stroke AF-Associated Stroke: Notes on a Management Revolution	57	Warfarin-Related ICH and Cerebral Amyloid Angiopathy	11	Vertigo Does Cervical Vertigo Really Exist?	79
Atrial Ectopic Beats: Another Risk Factor for Stroke.	25	What Is the Effect of Withdrawal of Support in Intracerebral Hemorrhage?	58	Is Migraine a Common Cause of Vertigo? The Jury Is Still Out.	55
Autoregulation of Cerebral Blood Flow in Acute Intracerebral Hemorrhage	74	Subarachnoid Hemorrhage Advances in Management of SAH	41	Vascular Origin of Cochleovestibular Disorders: No New Evidence	92
Bilateral Thalamic Infarction: Different Patterns in Different Territories	41	Unruptured Intracranial Aneurysms: Final Results of a Long-Term Study	38	Viral Infection (see also HIV Infection) Chlamydia and Multiple Sclerosis: Is There an Association?	71
Can Neuroimaging Predict Deterioration After Cerebellar Infarction?	3	Surgery Bilateral Deep-Brain Stimulation for Tremor.	42	Intrathecal Methylprednisolone for Intractable Postherpetic Pain	15
Can Plaque Morphology Determine Risk for Retinal or Brain Ischemia?	20	Crossing of the Spinothalamic System	53	Vision Disorders Indomethacin: A Possible Treatment for Intracranial Hypertension?	2
Cerebral Amyloid Angiopathy Associated with Ischemic Stroke Without Dementia	11	Effect of Clinical Alerts on the Practice of CE	32	Visual Complications Are Still Frequent in Giant Cell Arteritis.	1
Clinical Correlates of Diffusion and Perfusion Abnormalities in Acute Stroke	37	Endarterectomy in High-Grade Stenosis and Contralateral Occlusion	54		
Correlating Dysarthria with Causes, Anatomy, and Associated Symptoms of Stroke	74	Endovascular vs. Surgical Treatment of Carotid Stenosis: Report from CAVATAS.	75		
Does High Dietary Potassium Intake Reduce Stroke Risk?	82	Is Sural Nerve Biopsy Useful in Neurologic Practice?	4		
Education Still Needed on the Urgency of Stroke Care	27	Maximizing the Benefit of Carotid Endarterectomy: The Debate Continues.	3		
Factors Associated with Delay in Delivery of Acute Stroke Care	38	Mesial Temporal Lobectomy Superior to Medical Therapy for Epilepsy	81		
How Should Massive Hemispheric Stroke Be Managed?	26	Outcome After Epilepsy Surgery in Patients with MCD: One Center's Experience	22		
Hyperacute MRI in Stroke Diagnosis and Management: Two Views.	57	Radiosurgery vs. Surgery for Cavernous Sinus Meningiomas?	30		
Identifying Patients at High Risk for Stroke After TIA.	20	Thymectomy in Myasthenia Gravis: Problems and Questions Remain	4		
Is Central Pain Peripheral?	73	Syncope Diagnosis and Management of Syncope	31		
Leukoaraiosis: A Phenomenon That Needs Further Study.	29	T Telemedicine Neurology Consultations: Telemedicine Acceptable, In-Person Preferred	87		
Neurologic Complications: Still a Significant Problem in Bacterial Endocarditis.	16				
Organized Multidisciplinary Postacute Stroke Care Really Matters	38
