--	--	---

Persistent Impairment in Executive Functions Related to Alcoholism	68
Refined Techniques Used to Study Emotions in REM Sleep	27
Computed Tomography	
Acute Stroke: Predictive Value of Perfusion CT	58
CT Angiography and Xenon CT for Acute-Stroke Evaluation	18
Can PWCT in Acute Stroke Predict Outcome After Thrombolytic Therapy?	3
When Is CT Important Before Spinal Tap for Suspected Meningitis?	23
Conduct Disorder	
Aggressive Children and the Serotonin System	55

D

Dementia (see also Alzheimer's Disease)	
Concept of Mild Cognitive Impairment Reviewed	36
Does Cerebral Amyloid Angiopathy Affect Cognition?	75
Eating Behaviors in Frontotemporal Dementias and Alzheimer's Differ	96
Folate Deficiency in Perspective	91
HIV Brain Infection and Dementia	14
Moderate Drinking and Vascular Dementia	45
What Is Posterior Cortical Dysfunction?	44
What Is the Prevalence of Early-Onset Frontotemporal Dementia?	76
Demyelinating Polyneuropathies	
Conduction Abnormalities in ALS and in Diabetes Differ	92
Diabetic Amyotrophy and Its Nondiabetic Counterpart	78
High-Dose Immunosuppression for Refractory CIDP?	77
IVIG Therapy for IgG-MGUS Neuropathy	63
Identification of a Target Antigen in CIDP	12
New Electrophysiologic Criteria for CIDP Proposed	22
Reassessing the Causes and Treatment of Trigeminal Neuralgia	29
What Should Be Done for Mild Guillain-Barré Syndrome?	54

Depression	
Subjective Memory Complaints and fMRI in Depression vs. AD	68
Testosterone Deficiency: A Cause of Nonmotor PD Symptoms?	67

Diabetes Mellitus (see also Hyperglycemia)	
Conduction Abnormalities in ALS and in Diabetes Differ	92
Diabetic Amyotrophy and Its Nondiabetic Counterpart	78

Dizziness	
A New Variant of Benign Positional Vertigo Is Identified	24

Dyscalculia	
Cortical Correlates of Dyscalculia in the Preterm Population	5

E

Electromyography	
Are Nerve Conduction Studies Based on Long Segments Best?	6
Electrodiagnostic Testing to Evaluate Muscle Weakness	93
MUNE Testing More Sensitive Than Appel Score in Early ALS	63

Encephalitis	
Rasmussen's Encephalitis: Natural History Described	85

Entrapment Neuropathies (see also Carpal Tunnel Syndrome)	
Evaluation and Treatment of Carpal Tunnel Syndrome Reviewed	72
Practice Parameter: Electrodiagnostics and Carpal Tunnel Syndrome	81

Epidemiology	
Status Epilepticus: Trends Across Five Decades	4
Sudden Death in Childhood Epilepsy: The Search for Causes	21

Epilepsy (see also Anticonvulsants)	
A Malignant Form of Rolandic-Sylvian Epilepsy in Children	11
Can Intractable Epilepsy in Children Be Predicted?	21
Cardiovascular Autonomic Function in Epilepsy	60
Do Seizures Injure the Brain?	5
Etiology, Age Predict Long-Term Mortality After First SE Episode	56
Features of Adult-Onset Idiopathic Generalized Epilepsy	31
Gene Associated with Juvenile Myoclonic Epilepsy	60
IV Midazolam Minimally Beneficial in Refractory Status Epilepticus	21
More Evidence Associating AEDs with Bone Disease	71
Rasmussen's Encephalitis: Natural History Described	85
Status Epilepticus: Trends Across Five Decades	4
Sudden Death in Childhood Epilepsy: The Search for Causes	21
Vagus Nerve Stimulation in Lennox-Gastaut Syndrome	4
What Causes SUDEP?	86

Estrogen	
No Benefit from ERT for Secondary Prevention of Stroke	1

Euthanasia	
Euthanasia and Physician-Assisted Suicide in ALS	78

G

Genetic Factors	
Can Sibling Study Identify Genetic Contribution to MS?	29
Clinical, Genetic Features of Channelopathies Described, Correlated	94
Familial ALS: An Often-Invoked Mechanism Is Exonerated	95
Gene Associated with Juvenile Myoclonic Epilepsy	60
Homocysteine, MTHFR 677C→T Polymorphism, and Ischemic-Stroke Risk	90
Microarrays: Implications for Clinical Neurology	40
New Evidence for Genetic Contribution to Parkinson's Disease	47
New Monoclonal Antibody Aids Diagnosis of CADASIL	20
Rapid Research Advances in Genetics of Familial ALS	48
The Relations Among APOE ε4, Somnolence, and Memory Impairment	85
Update on the Genetics of the Hereditary Dystonias	70
Update on the Neural Basis of Aggressive Behavior	29

H

HIV	
HIV Brain Infection and Dementia	14
HIV-Related Motor Neuron Disease	14
Is HIV Myelopathy Caused by Vitamin B ₁₂ Deficiency?	52

Headache (see also Migraine)	
Clinical, Epidemiologic Characteristics of Cluster Headache	37
Developing Diagnostic Criteria for Hemicrania Continua	47
Diagnostic Criteria Proposed for Hemicrania Continua	27
Hemiplegic Cluster Headache	55
Is Platelet Hyperaggregability Associated with Leukoaraiosis?	69
Practice Parameter: How Should Recurrent Headaches in a Child Be Evaluated?	88

Heart Disease	
Hypothermia for Cerebral Protection After Cardiac Arrest	44
Meta-Analysis of Antiplatelet-Therapy Trials: Not All the Answers	33

Hemifacial Spasm	
Long-Term Treatment of HFS with Botulinum Toxin A: Effective, Safe	54

Homocysteine	
Elevated Homocysteine Is a Risk Factor for Alzheimer's Disease	36
Homocysteine, MTHFR 677C→T Polymorphism, and Ischemic-Stroke Risk	90

Hyperglycemia	
Effects of Hyperglycemia on Stroke Outcome	83
Hyperglycemia: Dependent or Independent Predictor of Ischemic-Stroke Outcome?	50

Hyperlipidemia	
Is Statin Use Associated with Polyneuropathy?	77

Hypertension	
Does Hypertension Affect Cerebral Blood-Flow Autoregulation?	60

Hypothermia	
Hypothermia for Cerebral Protection After Cardiac Arrest	44

I

Immunization	
Influenza Vaccination Reduces Stroke Risk in Some Patients	35

Immunomodulators (see also Interferon Therapy)	
CSF IgG Index as a Disease Activity Marker in MS	51
Does Immunotherapy Reduce Morbidity in Nondiabetic LSRPN?	30
High-Dose Immunosuppression for Refractory CIDP?	77
IVIG Therapy for IgG-MGUS Neuropathy	63
Interleukin-12 and Interleukin-10: Useful TMS Treatment Targets?	41
Transplant Unit Consults: Never Easy	64

Incontinence	
Don't Ignore the Colorectal Symptoms of Neurologic Diseases	7

Interferon Therapy	
More on Interferon β-1a for Early MS	51

Intracranial Hemorrhage	
Antiepileptic Drugs and Neonatal Bleeding	61

Intracranial Hypertension	
What Is the Ideal Head Position for Patients with Large Strokes?	33

Ischemia	
Factors Predicting Ischemic Events in Carotid Dissection	3
Minocycline: A Novel Therapeutic Agent for Perinatal Ischemia?	84
What Causes SUDEP?	86

L**Language**

- Language Lateralization in Non-Right-Handed People 80

Leukoencephalopathy

- Leukoaraiosis Increases Hemorrhage Risk After Ischemic Stroke 81
 New Monoclonal Antibody Aids Diagnosis of CADASIL 20

M**Magnetic Resonance Imaging**

- Brain Atrophy Occurs Earlier Than Expected in MS 41
 Brain-Mapping the Male Sexual Response 61
 CT and DWI Compared for Acute-Stroke Evaluation 89
 DWI vs. CT for Neurologic Evaluation After Cardiac Surgery 18
 Do Seizures Injure the Brain? 5
 Dopamine and Cortical Efficiency in PD: New fMRI Evidence 46
 Functional Imaging of Phantom Limb: Focus on Motor Activations 75
 How Useful Are the New McDonald Criteria for Diagnosing MS? 87
 Is Platelet Hyperaggregability Associated with Leukoaraiosis? 69
 Language Lateralization in Non-Right-Handed People 80
 MRI Study Provides More Data on Sporadic IBM 31
 MS Exacerbations and Infection: Few New Answers 52
 Novel MRI and MRS Findings of Brain Damage After Bypass Surgery 82
 Novel Method for Monitoring Alzheimer's Disease Progression 32
 Prolonged Febrile Convulsions Associated with Hippocampal Edema 95
 Subjective Memory Complaints and fMRI in Depression vs. AD 68
 Thrombolysis and PWI-DWI Mismatch in Stroke Patients 34
 Which Brain Regions Are Involved in Stroke Recovery? 83

Memory (see also Alzheimer's Disease)

- The Relations Among APOE ε4, Somnolence, and Memory Impairment 85

Meningitis

- Aseptic Meningitis Due to Rofecoxib Use 63
 When Is CT Important Before Spinal Tap for Suspected Meningitis? 23

Mental Disorders

- The Past, Present, and Future of Psychosurgery 28

Migraine

- Cranial Nerve Involvement in Ophthalmoplegic Migraine 55
 Hemiplegic Cluster Headache 55
 Migraine Diagnosis and Treatment in the UCD Inadequate 23
 New Data on Ischemic Stroke and Migraine 26
 Unilateral Cranial Autonomic Symptoms in Migraine 70
 What Role Should Antiepileptic Drugs Play in Migraine Prevention? 37

Mitochondrial Diseases

- Sensitivity, Specificity of Lactate Testing in Mitochondrial Diseases 87

Motor Evoked Potentials

- Motor-Evoked-Potential Studies in the Diagnosis of Psychogenic Paralysis 15

Movement Disorders (see also specific disorders)

- Localization of Claude's Syndrome Clarified 39

- More Data on the Neurologic Basis of Writer's Cramp 7
 Primary Lateral Sclerosis in Relation to Other Motor Neuron Diseases 31
 Update on the Genetics of the Hereditary Dystonias 70

Multiple Sclerosis

- A Possible Association Between Sjogren's Syndrome and MS 11
 Brain Atrophy Occurs Earlier Than Expected in MS 41
 CSF IgG Index as a Disease Activity Marker in MS 51
 Can Sibling Study Identify Genetic Contribution to MS? 29
 How Useful Are the New McDonald Criteria for Diagnosing MS? 87
 Interleukin-12 and Interleukin-10: Useful TMS Treatment Targets? 41
 MS Exacerbations and Infection: Few New Answers 52
 Modafinil for Fatigue in MS: Inconclusive Results 42
 More on Interferon β-1a for Early MS 51
 Neurocognitive Deficits Correlate with Brain Atrophy in MS 6
 Pathology Study Advances Understanding of SPMS 38

Muscle Disorders (see also specific disorders)

- Aging's Effects on Muscular Fatigability Explored 86
 Autoantibody Testing for Inflammatory Myopathies 39
 Botulinum Toxin A Improves Patient-Rated Post-Stroke Spasticity 90
 Clinical, Genetic Features of Channelopathies Described, Correlated 94
 Electrodiagnostic Testing to Evaluate Muscle Weakness 93
 Is HIV Myelopathy Caused by Vitamin B₁₂ Deficiency? 52
 MRI Study Provides More Data on Sporadic IBM 31
 Methotrexate Treatment of Inclusion Body Myositis 54
 Muscle Pathology in Sleep-Disordered Breathing 62
 Poliomyelitis-Like Syndrome Associated with West Nile Virus Infection 92
 Recognizing Axial Myopathy 79
 Review of Cases Aids Understanding of Camptocormia, Head Drop 86

Muscular Dystrophy

- Skin Biopsy to Detect Dystrophin Expression 70

Myasthenia Gravis

- Developmental Defects and Impaired Neuromuscular Transmission 30

N**Neural Stem Cells**

- Neural Stem Cells: Challenges for Restorative Neurology 17

Neuroimaging (see specific imaging types)**Neuronal Plasticity**

- Neural Stem Cells: Challenges for Restorative Neurology 17

Neuroprotection

- Minocycline: A Novel Therapeutic Agent for Perinatal Ischemia? 84

Neuropsychological Test

- Cognitive Performance in Long-Term Marijuana Users 36

O**Oppositional Defiant Disorder**

- Aggressive Children and the Serotonin System 55

P**Pain**

- Discovering Small-Fiber Sensory Neuropathy in Sarcoidosis 76
 Correspondence: Intraspinal Steroids for Low Back Pain 15
 More Data on the Neurologic Basis of Writer's Cramp 7
 Reassessing the Causes and Treatment of Trigeminal Neuralgia 29

Paralysis

- Motor-Evoked-Potential Studies in the Diagnosis of Psychogenic Paralysis 15

Paraneoplastic Syndromes

- FDG-PET Helps Diagnose Paraneoplastic Neurologic Disorders 16
 Monoclonal Gammopathy Not So Benign in the Long Term 53

Parkinson's Disease

- Assessing Morbidity and Mortality Associated with Pallidotomy 66
 Dopamine and Cortical Efficiency in PD: New fMRI Evidence 46
 Evidence-Based Assessment of Treatments for Parkinson's Disease 65
 How Are PD Patients Selected for STN Stimulation? 67
 Improved Accuracy in Diagnosing PD and Related Disorders 65
 Inverse Relations Between PD and Coffee, PD and Smoking 94
 New Evidence for Genetic Contribution to Parkinson's Disease 47
 Testosterone Deficiency: A Cause of Nonmotor PD Symptoms? 67
 The State of Drug Trials for Parkinson's Disease Treatments 94

Peripheral Neuropathy

- Acquired Dysimmune Neuropathies - The Expanding Spectrum 52
 Are Nerve Conduction Studies Based on Long Segments Best? 6
 Clinical Manifestations of Sarcoid Peripheral Neuropathy 39
 Conduction Abnormalities in ALS and in Diabetes Differ 92
 Discovering Small-Fiber Sensory Neuropathy in Sarcoidosis 76
 Does *H. influenzae* Infection Lead to Miller Fisher Syndrome? 6
 Does Immunotherapy Reduce Morbidity in Nondiabetic LSRPN? 30
 Monoclonal Gammopathy Not So Benign in the Long Term 53
 Small-Fiber Neuropathy: Types, Diagnosis, and Treatment 93

Polynuropathies

- Is Statin Use Associated with Polynuropathy? 77

Prion Diseases

- Antibodies Clear Prion Infection in Cell Culture 1
 Correction: Antibodies Clear Prion Infection in Cell Culture 19
 New Variant Creutzfeldt-Jakob Disease: Early Clinical Features 92

R**Radionuclide Imaging**

- FDG-PET Helps Diagnose Paraneoplastic
Neurologic Disorders 16

Restless Legs Syndrome

- Low Iron Stores and Restless Legs Syndrome
in Adolescents 62

S**Sarcoidosis**

- Clinical Manifestations of
Sarcoid Peripheral Neuropathy 39
Discovering Small-Fiber Sensory Neuropathy
in Sarcoidosis 76

Seizures

- IV Midazolam Minimally Beneficial in
Refractory Status Epilepticus 21
Prolonged Febrile Convulsions Associated
with Hippocampal Edema 95

Sensory Ataxic Neuropathy

- Chronic Sensory Ataxic Neuropathy: Insights
from a Case Series 13

Serotonin

- Aggressive Children and the Serotonin
System 55

Sexuality

- Brain-Mapping the Male Sexual Response 61
Testosterone Deficiency: A Cause of
Nonmotor PD Symptoms? 67

Sleep

- Muscle Pathology in Sleep-Disordered
Breathing 62
Nightmare Frequency Linked to Suicide 28
Refined Techniques Used to Study Emotions
in REM Sleep 27
The Relations Among APOE ε4, Somnolence,
and Memory Impairment 85

Spinal Cord

- Correspondence: Intraspinal Steroids for
Low Back Pain 15

Stiff-Person Syndrome

- IV Immune Globulin Effective for Stiff-Person
Syndrome, But 22

Stroke

- Acute Stroke: Predictive Value of
Perfusion CT 58
Aggressive Therapy for Large Hemispheric
Stroke 73
Antithrombotics in Acute Ischemic Stroke:
Practice Survey and New Guidelines 73
Aspirin vs. LMWH for Secondary Stroke
Prevention in Children 26
BP Lowering for Secondary Stroke Prevention . . 4
Botulinum Toxin A Improves Patient-Rated
Post-Stroke Spasticity 90
CT Angiography and Xenon CT for
Acute-Stroke Evaluation 18
CT and DWI Compared for Acute-Stroke
Evaluation 89
Can PWCT in Acute Stroke Predict Outcome
After Thrombolytic Therapy? 3
Characterization of Arterial Dissections in
Children 10
Correction: Does Ramipril Prevent Stroke and
Stroke-Related Disability? 67
DWI vs. CT for Neurologic Evaluation After
Cardiac Surgery 18
Do Neurotoxicity and Inflammation Mediate
Secondary ICH Injury? 44
Does Ramipril Prevent Stroke and Stroke-
Related Disability? 49
Effects of Hyperglycemia on Stroke
Outcome 83
Emergent Anticoagulation for
Ischemic Stroke 49
Emergent Craniotomy for Expanding Cerebral
Hematomas 59

- Homocysteine, MTHFR 677C→T
Polymorphism, and Ischemic-Stroke Risk . . . 90
Hyperglycemia and ICH Risk After
Intra-Arterial Thrombolysis 20
Hyperglycemia: Dependent or Independent
Predictor of Ischemic-Stroke Outcome? . . . 50
Hyperoxia in Ischemic-Stroke Treatment . . . 57
Influenza Vaccination Reduces Stroke Risk in
Some Patients 35
Intraventricular Hemorrhage and Delayed
Cerebral Ischemia 9
Leukoaraiosis Increases Hemorrhage Risk
After Ischemic Stroke 81
Meta-Analysis of Antiplatelet-Therapy Trials:
Not All the Answers 33
More Evidence on Causes of Stroke After
Bypass Surgery 10
Multimodal Monitoring in MCA Stroke with
Cerebral Edema 19
New Data on Ischemic Stroke and Migraine . . 26
No Benefit from ERT for Secondary
Prevention of Stroke 1
Novel MRI and MRS Findings of Brain Damage
After Bypass Surgery 82
Pathologic Laughter and Crying Linked to
Cerebellar Deafferentation 2
Prognosis Better After Transient Monocular
Blindness Than After TIA 19
Ptosis Not Such an Uncommon Sign of
Hemispheric Stroke 43
Risk Factors for Stroke After TIA: More Details,
More Questions 43
Risk Factors, Outcomes in Pre- or Perinatal
Ischemic Stroke 3
Stroke Recovery: Right-Hemisphere
Compensation 57
Thrombolysis and PWI-DWI Mismatch in
Stroke Patients 34
Tirofiban Appears Safe in Ischemic Stroke . . 25
Ultrasound-Detected Reocclusion Common
After IV TPA for Stroke 89
Warfarin vs. Antiplatelet Agents for
Nonrheumatic AF 25
Warfarin vs. Aspirin for Secondary Stroke
Prevention: WARSS 9
What Is the Ideal Head Position for Patients
with Large Strokes? 33
Which Brain Regions Are Involved in Stroke
Recovery? 83

Subarachnoid Hemorrhage

- Functional Imaging of Phantom Limb: Focus
on Motor Activations 75
Intrathecal Nitroprusside Treatment for
Vasospasm 58
Ultrasound to Detect Vasospasm after
Subarachnoid Hemorrhage 74

Surgery

- A Malignant Form of Rolandic-Sylvian Epilepsy
in Children 11
Aggressive Therapy for Large Hemispheric
Stroke 73
Assessing Morbidity and Mortality Associated
with Pallidotomy 66
Cardiovascular Autonomic Function in
Epilepsy 60
Emergent Craniotomy for Expanding Cerebral
Hematomas 59
How Are PD Patients Selected for STN
Stimulation? 67
More Evidence on Causes of Stroke After
Bypass Surgery 10
Novel MRI and MRS Findings of Brain Damage
After Bypass Surgery 82
The Past, Present, and Future of
Psychosurgery 28
Transplant Unit Consults: Never Easy 64

Syphilis

- Detecting Neurosyphilis in Infants: Beyond
Conventional Tests 79

T**Tissue Plasminogen Activator**

- Thrombolysis and PWI-DWI Mismatch in
Stroke Patients 34
Ultrasound-Detected Reocclusion Common
After IV TPA for Stroke 89

Tourette's Syndrome

- Clonidine Plus Methylphenidate for ADHD
and Tics 62

Transcranial Doppler Ultrasound

- Ultrasound to Detect Vasospasm after
Subarachnoid Hemorrhage 74

Transient Ischemic Attack

- Risk Factors for Stroke After TIA: More
Details, More Questions 43

V**Vagus Nerve**

- Vagus Nerve Stimulation in Lennox-Gastaut
Syndrome 4

Vertigo

- A New Variant of Benign Positional Vertigo Is
Identified 24

Vision Disorders

- Is Visual Field Testing by Confrontation
Obsolete? 8
Localization of Claude's Syndrome Clarified . . 39
What Is Posterior Cortical Dysfunction? 44

Visual Fields

- Is Visual Field Testing by Confrontation
Obsolete? 8

W**West Nile Virus**

- Poliomyelitis-Like Syndrome Associated with
West Nile Virus Infection 92
